The image shows a 15x15 grid for a word search puzzle. The top-left corner (approximately the first 4 rows and 4 columns) contains a photograph of a hand moving a blue chess piece on a wooden board. The rest of the grid is a 15x15 grid of cells. Some cells contain symbols or characters, which are likely clues for the words to be found. The symbols include parentheses, apostrophes, and ellipses. The grid is oriented vertically on the page.
