The image shows a 15x15 grid for a word search. In the top-left corner, there is a 4x4 area containing a photograph of a go-kart driver. The rest of the grid is empty but contains several symbols: dots (.), dashes (-), and arrows (pointing up, down, left, right, and diagonally). These symbols are placed at the intersections of the grid lines to indicate the starting and direction of words. For example, a dot is at (row, column) (1, 3), (1, 5), and (1, 7). A dash is at (1, 4). Arrows are placed at various other intersections throughout the grid.
