The image shows a word search puzzle on a grid. The top-left corner of the grid is occupied by a photograph of a car tire mounted on a red machine. The rest of the grid is a 12x12 grid of empty cells. Small black arrows are placed in various cells, pointing in different directions (up, down, left, right, and diagonally) to indicate the orientation of the words to be found. The arrows are distributed across the grid, with some pointing towards the center and others pointing towards the edges.
