The image shows a crossword puzzle grid. On the left side, there is a photograph of a traditional wooden pavilion with a thatched roof, built on stilts in a lush tropical forest. The grid is composed of black and white squares. Black squares are used to separate words. Small black arrows are placed in the starting squares of the words, pointing in the direction of the word's orientation (horizontal or vertical). The grid is 15 columns wide and 15 rows high. The photograph occupies the top-left corner of the grid, spanning approximately 4 columns and 4 rows.
