The image shows a crossword puzzle grid. The top-left corner features a photograph of a branch with green needles and several bright red, round berries. The rest of the grid is a 15x15 grid of squares. Some squares are pre-filled with symbols: dots (.), dashes (-), and arrows (↑, ↓, ←, →). These symbols indicate the starting and ending points of words to be placed in the grid. For example, in the top row, there are arrows pointing down in the 2nd, 4th, 6th, 8th, and 10th columns. In the second row, there are arrows pointing right in the 3rd, 5th, 7th, and 9th columns, and arrows pointing down in the 4th, 6th, and 8th columns. The grid is otherwise empty, ready for words to be filled in.
