The image shows a word search puzzle on a grid. On the left side, there is a photograph of a white cow with black spots and horns. The grid is composed of 12 columns and 12 rows. Various arrows are placed within the grid cells to indicate the starting points and directions of words to be found. The arrows point in four directions: up, down, left, and right. Some arrows are placed in the middle of a cell, while others are placed at the corners. The puzzle is designed to be solved by finding words that follow the directions of the arrows.
