The image shows a word search puzzle on a grid. The top-left corner of the grid is occupied by a photograph of a cormorant with its wings spread, perched on a wooden post against a blue sky and water background. The rest of the grid is a 12x12 grid of squares. Some squares contain symbols: dots (.), arrows (pointing up, down, left, right, or diagonally), and numbers. A specific number '0,37' is visible in the fourth row, first column. The symbols are scattered throughout the grid, indicating the starting points and directions for words to be found.
