The image shows a word search puzzle on a grid. On the left side, there is a photograph of a bald eagle's head and neck. The grid is composed of 12 columns and 12 rows. Various letters and symbols are placed within the grid cells. Some cells contain arrows pointing in different directions (up, down, left, right, and diagonally), indicating the orientation of the words. There are also some numbers: '0,5' is located in the 5th row, 5th column, and '9-' is in the 5th row, 10th column. The eagle's head is positioned in the top-left corner of the grid, with its beak pointing towards the right.
