The image shows a 15x15 grid for a word search puzzle. The top-left corner (rows 1-5, columns 1-5) contains a photograph of a clown with a yellow wig, a red nose, and a wide smile, wearing a colorful striped outfit. The rest of the grid is empty. Small black arrows are placed in various cells to indicate the direction of words to be found: horizontal (right), vertical (down), and diagonal (down-right).
