A crossword puzzle grid consisting of 15 rows and 12 columns of cells. The grid is partially filled with starting images and numbers for clues. In the top-left corner, there is a portrait of a woman with short blonde hair, smiling, with a white circle containing the number '1' overlaid on it. In the bottom-right corner, there is a portrait of an older man with grey hair, wearing a suit, with a white circle containing the number '2' overlaid on it. Small black arrows are placed in some cells to indicate the direction of the words (horizontal or vertical). The grid is mostly empty, with some faint numbers and arrows visible in the top section.
