The crossword puzzle grid is 12 columns wide and 15 rows high. It contains two images and two starting points for words:

- Image 1:** A scarlet ibis, a bright red bird with a long, downward-curved beak. It is positioned in the top-left corner of the grid, spanning the first three rows and the first four columns. A small black circle with the number '1' is in the bottom-left corner of this image.
- Image 2:** A snow leopard, a big cat with a white coat and dark spots. It is positioned in the bottom-right corner of the grid, spanning the last three rows and the last four columns. A small black circle with the number '2' is in the bottom-right corner of this image.
- Numbered Starters:**
 - A black circle with the number '1' is located at the intersection of the 7th row and the 8th column.
 - A black circle with the number '2' is located at the intersection of the 10th row and the 5th column.

Arrows indicate the directions for the words starting from these numbered circles. The grid is otherwise empty, with only the black squares from the images and the numbered starting points.
