

" "

The image shows a crossword puzzle grid. On the left side, there is a photograph of several red lantern flowers (Physalis peruviana) hanging from a stem. The grid is composed of 10 rows and 10 columns. The top-left cell is occupied by the photograph. The grid contains several pre-filled cells with symbols: slashes (/), dashes (-), and arrows (L-shaped, T-shaped, and V-shaped) indicating the start and direction of words. For example, in the first row, the second and third cells contain slashes, and the fourth cell has a downward arrow. In the second row, the first cell has a rightward arrow, and the fifth and sixth cells have downward arrows. The grid is otherwise empty, with most cells containing slashes or dashes, suggesting a search for words.
