The image shows a 12x12 grid for a word search. The top-left 4x4 area is occupied by a photograph of water being poured from a clear plastic bottle into a glass. The rest of the grid is a black-and-white grid with small arrows and numbers indicating the direction of words to be found. The arrows point in four directions: up, down, left, and right. Some cells contain numbers, such as '40' in the second row, second column. The grid is designed to be scanned for words.
