The image shows a 10x10 grid used for a word search puzzle. In the top-left corner of the grid, there is an image of a thermometer. The thermometer has two scales: Fahrenheit (F) on the top and Celsius (C) on the bottom. The red liquid level is positioned between the 100 and 110 marks on the Fahrenheit scale and between the 30 and 40 marks on the Celsius scale, specifically at approximately 38 degrees Celsius. The grid itself contains small black arrows in various cells, pointing in different directions (up, down, left, right, and diagonally) to indicate where to start scanning for words.
