

"

"

A 15x15 grid for a word search puzzle. The first column is occupied by a photograph of a red mushroom with a light-colored stem, growing in a forest setting. The remaining 14 columns are empty. Small black arrows are placed in various cells to indicate the direction of words to be found. The arrows point in the following directions: down, right, left, up, and diagonally (down-right, up-right, down-left, up-left).
