"

The image shows a 12x12 grid used for scanning words. The top-left 4x4 area contains a photograph of a rainbow umbrella in a grassy field under a blue sky. The rest of the grid is empty, with small black arrows and numbers indicating scan directions. For example, in the top row, the second cell contains '1/25' with a downward arrow, and the third cell has a downward arrow. Other arrows point in various directions (up, down, left, right, and diagonally) across the grid.
