The image shows a crossword puzzle grid. In the top-left corner, there is a portrait of Keanu Reeves wearing sunglasses and a black turtleneck. The grid is composed of 12 columns and 12 rows. The top-left cell is occupied by the portrait. The grid contains several directional arrows: right-pointing arrows (→) and down-pointing arrows (↓). These arrows indicate the starting positions and directions of the words to be filled in. The grid is otherwise empty, with no letters or numbers present.
