

" "

A crossword puzzle grid is shown. The grid is 12 columns wide and 14 rows high. The top-left corner contains a portrait of an elderly man with a surprised expression, wearing a dark jacket over a striped shirt. A small black square with the number '1' is in the bottom-left corner of this portrait. The bottom-right corner contains a portrait of a woman with voluminous, curly blonde hair, wearing a light pink top. A small black square with the number '2' is in the bottom-right corner of this portrait. The grid contains several black squares that define the starting points for words. Arrows indicate the direction of the words: horizontal words start with a right-pointing arrow, and vertical words start with a downward-pointing arrow. The grid is otherwise empty, with no letters or numbers placed within the white squares.
