The crossword puzzle grid is 15 columns wide and 15 rows high. It features two images: a mole on the left and a donkey on the bottom right. The grid contains numbered squares and directional arrows indicating the start and direction of words.

Image 1: Mole (located in the top-left corner of the grid, spanning rows 1-3 and columns 1-3). A small square with the number '1' is in the top-left corner of the mole image.

Image 2: Donkey (located in the bottom-right corner of the grid, spanning rows 11-15 and columns 11-15). A small square with the number '2' is in the bottom-right corner of the donkey image.

Numbered Squares:

- Row 2, Column 4: Square with number '1'. Arrows point right and down.
- Row 8, Column 8: Square with number '2'. Arrows point left and down.

Directional Arrows: Small black arrows are placed in the corners of grid cells to indicate the start and direction of words. For example, in the top row, arrows point down from columns 2, 3, 4, 5, and 6. In the second row, arrows point right from columns 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, and 15.
