

" "

The image shows a 12x12 grid puzzle. The top-left 4x4 area contains a photograph of a glass jar of cream with a white lid and a green leaf. The rest of the grid is filled with asterisks and arrows indicating the direction of the words. The arrows point in the following directions: down, right, left, up, and down-right. The asterisks form various patterns, including solid words and partial words. The grid is designed to be solved by identifying the words based on the asterisk patterns and their orientations.
