The image shows a crossword puzzle grid. In the top-left corner, there is a photograph of the Lincoln Memorial in Washington, D.C., featuring its iconic neoclassical architecture with a curved portico supported by tall columns. The rest of the page is a crossword grid. The grid consists of 12 columns and 15 rows. Black squares are placed in various positions to define the puzzle's layout. Small black arrows are placed in the white squares to indicate the starting point and direction of the words to be filled in. For example, in the top row, arrows point down from the second, fourth, sixth, and eighth columns. In the second row, an arrow points right from the first column, and another points down from the third column. The grid is otherwise empty, ready for a player to enter the correct words.
